STATEMENT IN SUPPORT OF PETITION PURSUANT TO CFR 1.137(B)

Sir:

Applicants, through their attorneys, submit this statement in support of their petition to revive the above referenced application which was abandoned on the apparent basis that Applicants' had failed to timely pay the issue fee and publication fee in a CORRECTED NOTICE OF ALLOWANCE AND FEE(S) DUE mailed to the Applicants on November 30, 2007.

BACKGROUND

1. On October 26, 2007 Jennifer M. Lane (Reg. No. 51916) concluded an interview with Examiner Vathyam Surekha which resulted in the allowance of a single claim in the above referenced application (Exhibit A "First Interview Summary").
2. On October 30, 2007 a "Corrected" Notice of Allowance and Fee(s) Due was mailed to the Applicants (Exhibit B "Corrected Notice of Allowance"). Applicants note that there is NO record in PAIR of a Notice of Allowance generated other than the "Corrected" form sent to the Applicants. Applicants also note that the "due date" entered on this form do not

In re Cummings et al.

Attorney Docket No. SD-33532/US

provide the 3 month period allowed by statute and is likely a typographical error since the Corrected Notice of Allowance was mailed on the last day of November and the last day of the third month would have been February 29, 2008 and NOT February 19, 2008.

3. On February 4, 2008 Applicants' representative prepared to pay the issue fee in the above referenced application and found that there was NO Part B of Form PTOL-85 attached to "Corrected" form sent to the Applicants (see Exhibit B). Applicants' representative therefore reviewed the Application Data recorded in PAIR realized that Examiner Surekha had left the Examining Corps and that Examiner Kaj Olsen had been assigned this application.

4. Beginning on February 4, 2008 Applicants' representative immediately began making multiple contacts with Examiner Olsen. (see Exhibit C "Second Interview Summary"). Examiner Olsen informed this representative that the Form PTOL-85 was generated by a contractor to the USPTO and was not assessable to the Examining Corps but that he would attempt to generate a Supplemental Notice of Allowance. This representative agreed that this would be an acceptable approach.

5. However, on February 27, 2008, because Examiner Olsen continued receiving no response to his request and because no Supplementary Notice of Allowance was forthcoming, this representative prepared a Form PTO/SB/17 "Fee Transmittal" identifying the above referenced application (Exhibit D "Fee Transmittal"), a letter explaining the instant situation (Exhibit E "Letter of Explanation") and authorizing the Commissioner to pay the issue and publication fees and transmitted these documents by facsimile on February 27, 2008.

6. On February 27, 2008, the issue and publication fees were accepted by the U.S. Patent and Trademark Office ("Office") and posted against Deposit Account 50-0583 (Exhibit F "Corrected Notice of Allowance" showing annotation indicating payment received).

7. On March 26, 2008 a Notice of Abandonment (Exhibit G "Notice of Abandonment") was placed in PAIR in the File Wrapper of the present application noting that the required fees were paid on February 27, 2008 and stating that abandonment was due to "Applicant's failure to timely pay the required issue fee and publication fee, if applicable, within the statutory period of three months from the mailing date of the Notice of Allowance".

APR 03 2008

In re Cummings et al.

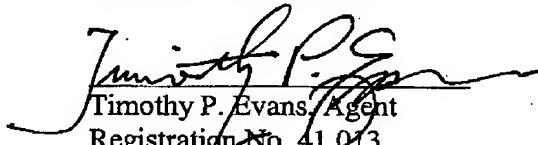

Attorney Docket No. SD-33532/US

Applicants' now respectfully assert that because the mailing date of the Notice of Allowance is clearly stated as 11/30/2007 the statutory period allowed for paying that required fees under 35 U.S.C. §151 would have remain pending through February 29, 2008. Furthermore, because Applicants' payment of fees was accepted by the Office on February 27, 2008 Applicants there was NO delay in paying the fee, that the fees were timely paid, and that the application should not have been held to be abandoned.

THEREFORE, for the foregoing reasons, Applicants respectfully PETITION the Office to vacate the holding of abandonment in Application Serial Number 10/760,139, to revive the instant application, and to pass the application to issue as the fee for such were timely paid as shown.

This reply is:

Respectfully Submitted,

Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135, (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent and Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner.
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

Continuation Sheet (PTOL-413)

Application No. 10/760,139

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Ms. Lane was informed of the content of the Advisory Action in response to the amendments filed on 10/22/07 since it has not yet been mailed but has been approved for mailing. Particularly, the reasons for not entering new claim 22 were discussed as outlined in the Advisory Action. The examiner indicated that the rejection of claim 21 under 35 USC 103 was withdrawn however, new claim 22 did not truly represent placing claim 21 in independent form. The language of claim 21 that would need to be in independent form to place it in condition for allowance was discussed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The closest prior art is Austin et al. (US 6,824,664) in view of Christel et al. (US 6,368,871).

Regarding claim 23, Austin ('664) in view of Christel ('871) does not disclose or render obvious the step of trapping the particles in a ring around a center of the radial array, along with the remaining limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Surekha Vathyam whose telephone number is 571-272-2682. The examiner can normally be reached on 7:30 AM to 4:00 PM.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative initially contacted the examiner the week of February 4 because the PTO-85B form was missing from the Notice of Allowability mailed on 11-30-2007. After the examiner was unable to contact anyone responsible for these papers, the examiner indicated in a conversation on February 11 that the examiner would submit a supplementary Notice of Allowability with the hope that this supplementary Notice will contain the complete papers. The applicant's representative agreed to said approach.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a reply to the last Office action has already been filed, APPLICANT IS GIVEN A NON-EXTENDABLE PERIOD OF THE LONGER OF ONE MONTH OR THIRTY DAYS FROM THIS INTERVIEW DATE, OR THE MAILING DATE OF THIS INTERVIEW SUMMARY FORM, WHICHEVER IS LATER, TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. See Summary of Record of Interview requirements on reverse side or on attached sheet.

Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiner's Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

RESPONSE UNDER 37 CFR §1.311

Sir:

Applicants, through their representative, respectfully present the following reply to the CORRECTED NOTICE OF ALLOWANCE AND FEE(S) DUE mailed to the applicants on November 30, 2007 (copy enclosed) in the matter of U.S. Application Serial Number 10/760,139. Applicants did not receive the copy of PART B of form PTOL-85 with the initial NOTICE OF ALLOWANCE. In the interim period between the mailing of the NOTICE and the Applicants taking up this application to pay the fees the Applicants found that the Examiner originally assigned to this matter has left the employment of the USPTO and a new Examiner had been assigned. A review of PAIR indicated that this form was never included with the file wrapper in the instant application. Repeated calls to the newly assigned Examiner have failed to resolved the issue.
